EXECUTIVE PROFILE

- ✓ Strategic technology leader with over 10+ years of experience driving enterprise digital transformation, ERP modernization, and large-scale IT initiatives across retail, fintech, BPO, and infrastructure environments.
- ✓ Specializes in aligning technology with business strategy, translating complex operational challenges into scalable, secure, and high-performing digital solutions.
- ✓ Expertise spans the full lifecycle of ERP program leadership, cloud and infrastructure architecture, DevOps enablement, business process re-engineering, AI automation, and vendor and budget management.
- ✓ Consistently builds unified platforms that enhance visibility, improve decision-making, and enable sustainable growth; delivering end-to-end ERP implementations, governance frameworks, and in-house applications that support core business operations.
- ✓ Combines technical depth with executive alignment; working closely with C-suite and board-level stakeholders to ensure technology investments deliver measurable value, operational efficiency, and long-term scalability.
- ✓ Actively seeking opportunities to bring transformative leadership to organizations ready to modernize, scale, and leverage digital platforms as a competitive advantage.

Open to new challenges and excited to bring innovation, digital agility, and transformation leadership to a forward-thinking organization.

CORE COMPETENCIES

• Enterprise Digital Transformation Strategy	• Data Analytics, BI & Decision Enablement
• ERP Program & Large-Scale Implementation Leadership	• Cybersecurity Strategy & IT Controls
• IT Governance, Risk & Compliance (GRC)	• Vendor, Contract & Financial Management
• Program & Project Portfolio Management (Agile/Hybrid)	• Executive & Board-Level Reporting
• Business Process Re-engineering & Automation	• Stakeholder & Change Management
• Enterprise Architecture & Solution Design	• AI & Emerging Technology Enablement
• Cloud Strategy & Infrastructure Management	• Regulatory Compliance (Data Privacy Act / ISO 27001 / GDPR), PCI DSS, PCI Compliance)
• DevOps, CI/CD & Engineering Governance	• Software Engineering & Scripting
• IT Leadership & Management	• Vendor Management & Negotiation

PROFESSIONAL EXPERIENCE

Head of IT & Digital Transformation | ERP Program Director

GTO Trading Corporation (Resigned) | November 2025 – March 2026

Defined and executed enterprise-wide IT and digital transformation strategy aligned with business growth and scalability. Led end-to-end ERP program — spanning strategy, selection, implementation, and optimization — across Finance, Supply Chain, Sales, and Operations. Served on the Executive Steering Committee, establishing program governance, KPIs, risk management frameworks, and executive reporting cadence. Oversaw infrastructure, cloud strategy, and cybersecurity posture while managing the full vendor ecosystem and IT budgets to optimize cost and ROI.

- Established IT governance frameworks covering portfolio management, cybersecurity, compliance, and enterprise architecture
- Led business process re-engineering initiatives improving efficiency and enabling automation across core operations
- Directed cross-functional teams and external partners with strict CAPEX/OPEX budget control

- Steering Committee member, Technology Modernization Advisor for the Top Management

Key Achievement: *Successfully transformed fragmented systems into a unified ERP-driven enterprise platform, significantly improving operational visibility, data accuracy, and executive decision-making.*

IT Manager / Vendor Collaboration Lead

Chris Sports, Inc. (Resigned) | July 2025 – October 2025

Directed IT strategy and digital transformation roadmap aligned with business objectives. Led implementation and optimization of Odoo ERP across retail, warehouse, and service operations. Managed cloud platforms (SaaS/PaaS), cybersecurity frameworks, and automation initiatives. Reported directly to executive leadership across international and local stakeholders.

- Spearheaded workflow automation and process optimization to improve operational efficiency
- Ensured scalable IT practices supporting multi-site retail and warehouse operations

Key Achievement: *Improved system uptime, IT service delivery, and operational efficiency through scalable IT practices.*

Head of Software Development & Technical Engineering (IT Consultancy)

Ventaja International Corporation – PAYREMIT (Fintech) (End of Contract) | July 2023 – December 2023

Led a team of 17 engineers, establishing departmental structure, governance, and security compliance architecture. Directed infrastructure buildout and containerization (Docker). Managed stakeholder engagement with CEO, CTO, and executive leadership alongside vendor management and budgeting.

- Implemented IT and security compliance policies adopted organization-wide
- Managed cross-functional coordination across engineering, operations, and executive teams

Key Achievement: *Delivered multiple enterprise systems including payroll and POS deployments across airport terminals.*

DevOps Engineer → Senior DevOps Engineer → Team Manager

VXI Global Solutions, LLC (BPO / Global Services) (Laid off — COVID-19 Pandemic) | January 2016 – December 2021

Led DevOps team through AWS cloud migration (RDS, CloudWatch) and established CI/CD pipelines using Jenkins and GitLab. Managed production monitoring, system uptime, and Agile delivery across global programs. Delivered executive reporting to US-based leadership.

- Scaled DevOps capability through process automation and engineering standardization
- Applied Agile/Scrum methodologies to accelerate delivery efficiency

Key Achievement: *Scaled DevOps capability and enhanced program delivery through process and automation improvements.*

Senior Software Engineer / MIS Analyst / Project Manager

VXI Global Solutions, LLC (Promoted) | May 2013 – January 2016

Developed enterprise tools with global impact, specializing in software engineering, database systems, and HR technology solutions. Promoted to DevOps Team Manager based on performance.

Head – Testing & Commissioning

Systems Variable Technicom, Inc. (Resigned) | January 2013 – May 2013

Led large-scale security and home automation implementations, ensuring compliance with the Data Privacy Act and governance standards.

IT Technical Project Manager

Main Hardware, Inc. (Enterprise Clients: BSP, JP Morgan, Emerson) (Resigned) | October 2010 – December 2012

Managed end-to-end delivery of large-scale security and infrastructure projects. Designed and implemented security operations centers and access control systems for banking and enterprise clients. Led vendor selection, contract negotiation, and budget management while ensuring compliance with banking and enterprise security standards.

Partnerships Manager

Gawad Kalinga Development Foundation Center (Resigned) | January 2010 – October 2010

Managed strategic partnerships, client relations, and community development leadership initiatives.

TECHNOLOGY STACK

- **ERP & Platforms:** Odoo, SAP, Workday, NetSuite, Monday, MSDi365
- **Cloud & Infrastructure:** AWS, Azure, GCP, Digital Ocean, Linux, QNAP, Synology, Hostinger, Odoo.sh, Cloudpepper, Jira & Confluence
- **DevOps & Tools:** Jenkins, GitHub, Bitbucket, GitLab, Docker, Kubernetes, Nagios, Vagrant, Git
- **Languages:** C#, Python, SQL, MSSQL, TypeScript, Postgres, Node.js, JavaScript, MongoDB, PHP, Laravel, VB
- **Dev Tools:** MS Visual Studio, VSCode, IntelliJ, Sublime, NetBeans, MySQL Workbench,
- **Security & Networking:** Cisco, VPN, VLAN, Access Control Systems, Data Privacy Act, ISO 27001, GDPR, GPO
- **Analytics & Reporting:** Power BI, AI Integrations, SQL
- **AI Frameworks:** Claude, ChatGPT (OpenAI), MS Copilot, Gemini, Replit, Figma, Famous AI, Emergent, Luna, Krater.ai,
- **Automation & API:** Cal.com, Plaud, Slack Bots, Supabase, SendGrid, AgentMail, ReSend, Twilio, ElevenLabs

LEADERSHIP & VALUE PROPOSITION

- Enterprise-wide transformation leadership across retail, fintech, BPO, and infrastructure sectors
- Strong blend of technical depth and executive-level strategic thinking
- Proven ability to align IT initiatives with measurable business outcomes and ROI
- Expertise in leading high-impact ERP programs and digital modernization efforts
- Trusted advisor to C-suite and board on technology strategy, risk, and emerging innovation
- Passionate about AI automation, intelligent integrations, and data-driven decision-making

EDUCATION & CERTIFICATIONS

Education

- B.S. in Computer Science — AMA Computer University, Philippines
- MCA, Information Management Systems (Special Program) — The American College of Greece
- Diploma, High School — Glyfada Christian Academy, Greece

Professional Certifications & Trainings

- Microsoft Certified Technical Specialist (MCTS)
- Cisco Certified Network Associate (CCNA)
- S2 Certified System Integrator
- ITIL v4 Foundation
- Odoo ERP Functional — Axiom World
- Sharpen the Saw Leadership Program
- Agile & Scrum Practitioner
- DevOps Practitioner
